

## No. 43.—NORTH-WEST OF LAKE EYRE.

By F. E. JACOBS, Esq.

THE following vocabulary from the language of the tribe which dwells to the north-west of Lake Eyre was kindly forwarded to me by Mr. F. E. Jacobs, a German gentleman resident at the Lutheran Mission Station at Kopperamana. I have thought it necessary to call attention to the nationality of my correspondent, as in many cases the spelling of the words of his vocabulary, *taken from an English point of view*, represents sounds which it would be impossible for an Australian Black to utter. The *sth*, which occurs so frequently, I take to represent the nasal sound which is generally expressed by *ng*.
