Bone - - -	<i>Beagim.</i>	Mopoke - - -	<i>Rorp-rorp, duni-dunit.</i>
Sun - - -	<i>Nung.</i>	Kangaroo - - -	<i>Bulukone-quangi.</i>
Moon - - -	<i>Bait.</i>		

Is the custom of giving the name of any natural object to a man or woman common, and on the death of the person so named is the word disused and another substituted to indicate such natural object?—The names of the deceased persons are seldom or never mentioned by them.

Such a custom, it is said, leads to great alterations in the language; are there any other obvious causes in operation leading to changes in the names of things?—I don't know.

ANGUS MACINTYRE, Kulkyne, Lower Murray.
