# R E P O R T.

Melbourne, 2nd November, 1910.

MAY IT PLEASE YOUR EXCELLENCY.

The Board for the Protection of the Aborigines have the honour to submit for Your Excellency's consideration their Forty-sixth Report on the condition of the aborigines of this State, together with the reports from the managers of the stations and other papers.

Mr. H. P. Keogh, who had been a member of the Board since 8th August, 1902, resigned on the 6th July, 1910. Mr. T. Livingston, M.L.A., has been appointed to fill the vacancy.

The number of aborigines and half-castes who have been maintained or partly provided for during the year ended 30th June, 1910, was 256, as follows :—

Locality.	Blacks.	Half-castes.	Total.
Coranderrk ... ..	48	13	61
Lake Condah ... ..	40	10	50
Lake Tyers ... ..	52	21	73
Antwerp ... ..	2	1	3
Framlingham ... ..	3	36	39
Koondrook ... ..	—	1	1
Lindenow ... ..	1	5	6
Mildura ... ..	3	4	7
Stratford ... ..	1	7	8
Swan Hill ... ..	4	2	6
Wahgunyah ... ..	2	—	2
Total ... ..	156	100	256

The numbers on the 30th June, 1909, were 173 aborigines and 80 half-castes.

The returns of births, marriages, and deaths were as follow :—

Station.	Births.	Marriages.	Deaths.
Coranderrk ... ..	3	4	8
Lake Condah ... ..	1	—	5
Lake Tyers... ..	3	—	7
Totals ... ..	7	4	20

The deaths included 17 blacks and 3 half-castes.

The following table shows the ages (approximately) of those who died during the year :—

Under 1 year ... ..	5
Over 1 year and under 5 years ... ..	4
„ 5 years and under 21 years ... ..	2
„ 21 „ „ 40 „ ... ..	1
„ 40 „ „ 60 „ ... ..	2
„ 60 years ... ..	6
Total ... ..	20

Owing to the prevalence of tuberculosis at Coranderrk, the Board requested the Chairman of the Board of Public Health to have the station inspected by an officer of his Department. Dr. Robertson accordingly made the desired inspection, and submitted a report, which is under consideration.

At the other stations the health of the people has been good.

A tabulated statement showing the amount expended in administering to the wants of the aborigines for the past twenty years is appended:—

STATEMENT OF AMOUNTS VOTED BY PARLIAMENT, OF REVENUE RECEIVED, AND OF NET COST OF BOARD FROM 1891 TO 1910.

Year.	Amount Voted.			Amount Expended.			Unexpended Vote.			Revenue from Sale of Produce, &c., paid into Treasury.			Net Cost of Board.

1908*	4,945	0	0	4,679	0	0	266	0	0	279	3	3	4,399	16	9
1909†	4,104	0	0	3,968	5	9	135	14	6	28	0	10**	3,940	4	11
1910 ...	4,278	0	0	4,226	0	0	52	0	0	—			4,226	0	0

\* Including special vote of £1,000 for buildings, of which only £734 had been expended.

† Including revote of £266 for buildings.

\*\* The revenue from Coranderrk is now received and expended by the Board.

The proceeds from the sales of produce are dealt with by the Board, and the accounts, which have been examined by an officer of the State Audit Office, are shown in Appendices 5 and 6.

The areas of land reserved for the use of the aborigines are as follow:—

	Acres.
Coranderrk ...	2,400
Lake Condah ...	2,050
Lake Tyers ...	4,000
Colac ...	20
Framlingham ...	548
Lake Moodemere ...	21
	9,039

Petitions for assistance being constantly received from half-castes, who have no legal right to support from the Board, consideration has been given to the matter of obtaining legislative authority to supply assistance in deserving cases. A Bill giving the Board the necessary power to deal with such applications has recently received your Excellency's assent.

I have the honour to be,

Your Excellency's most obedient servant,

W. A. CALLAWAY.

Vice-Chairman.

His Excellency Sir T. D. Gibson Carmichael, Bart., &c., &c., &c.

## APPENDIX I.

Coranderrk Aboriginal Station,  
11th August, 1910.

The Secretary, Board for Protection of Aborigines.

SIR,

I have the honour to forward you the Annual Report of this station for the year ended 30th June, 1910.

1. The number of Aborigines attending the station during each month and the daily average attendance was as follows :—

1909.			Highest.	Lowest.	Daily Average.	1910.				
July	...	...	63	62	62	January	...	70	69	70
August	...	...	72	62	65	February	...	69	65	68
September	...	...	73	72	72	March	...	71	63	66
October	...	...	73	67	70	April	...	68	61	66
November	...	...	70	68	68	May	...	66	55	56
December	...	...	70	67	69	June	...	61	55	57

## 2. Births :—

Date.	Sex.	Name.	Parents' Names.	Colour.
14th November, 1909	Male	Frank Blair	Jacob Harrison Lizzie Harrison	Black
12th December, 1909	Female	Mary Angeline	Alex. McRae Mary McRae	Black
16th January, 1910	Male	John Gibbs	Albert Carl Darby Ella Darby	Black

## 3. Marriages :—

Date.	Name.	Colour.	Sex.
25th August, 1909	Henry McRae Lizzie Hamilton	Black	Bachelor Spinster
27th January, 1910	Thomas Dunolly Jemima Wandin	Half-caste	Widower Widow
28th January, 1910	Edward Collett Eliza Fenton	Black Half-caste	Widower Widow
23rd March, 1910	William Russell Julia Sutton	Half-caste Half-caste	Widower Widow

## 4. Deaths :—

Date.	Name.	Sex.	Cause of Death.	Colour.	Age.
18th January, 1910	Jeannie Rowan	Female	Paralysis and Heart Failure...	Black	66 years
24th February, 1910	Albert Darby	Male	Multiple Tumour and Exhaustion	Black	51 "
25th February, 1910	Rochford Robinson	Male	Phthisis	Black	12 "
30th April, 1910	Walter Leslie Darby	Male	Excessive eating of Wattle Gum, &c.	Black	3 "
16th June, 1910	John Gibbs Darby	Male	Inanition	Black	Infant.
17th June, 1910	Ella Susan Darby	Female	Tubercular Laryngitis	Black	19 years
17th June, 1910	Matilda Hammond	Female	Disseminated Tuberculosis	Half-caste	21 "
27th June, 1910	Albert Edward King	Male	Acute Tuberculosis	Black	1 year

5. Religious services are held regularly every Sunday morning by the Rev. James Spittal and myself alternately. Sunday-school is conducted in the afternoon by Mrs. Roberts and myself, and a service of song in the evening, which the natives very much enjoy. A short service is held every morning during the week. The services on the whole are well attended.

6. The children of school age (9 in number) attend the Badger Creek State School. Their progress is slow.

7. The land reserved for the natives is 2,400 acres, subdivided into 14 paddocks, 6 of which are large grazing paddocks. The balance are small, varying from 2 to 5 acres, and mostly used for growing the different crops for the use of the station. Nine acres were under oats, from which about 9 tons of hay were harvested; 3 acres of potatoes, which produced about 9 tons;  $\frac{3}{4}$  acres of pumpkins, which yielded about 3 tons; 1 acre of different vegetables, which has been the means of providing an abundant supply weekly for all the natives on the station for the past eight months, with sufficient to keep the supply going until fresh vegetables come in. There are 5 acres under hops; the crop last season was very light, mainly due to the age of the plantation, it having been in existence for over 30 years.

8. About 12 cows are milked daily for the use of the station. During the summer months, when there was plenty of grass, and a good supply of milk to separate, the natives were supplied with butter weekly. There have been killed for meat 2 cows, 14 heifers, 24 steers; total, 40. Meat is given out twice weekly; each adult receives 1 lb. per day, and children a small allowance according to age. The stock on the station consists of the following:—44 cows, 45 calves, 43 heifers, 36 steers, 3 bulls, 12 horses, 8 bullocks, 2 pigs; total, 193.

9. All the cottages, 17 in number, are occupied, including the Teacher's residence. The other buildings are: Manager's house, church, schoolroom, store rooms, dairy, butcher's shop, work shop, dray shed, stabling, barn, and hop kiln, &c. The cottages are in fair order, and are kept clean and tidy. A number of the native women are taking a pride in their homes.

10. During the year the men have erected over a mile of new boundary fence, also 30 chains around the Manager's house and cottages and re-erected some subdivision fences. They have been burning and clearing off blackberries, gardening, and general routine station work.

11. The natives do a little hunting, chiefly rabbits. I encourage this to keep down the pest. They receive a liberal supply of everything, and are happy and contented. There has been a deal of sickness among the natives since January, which has resulted in a heavy death rate. The existence of tuberculosis is much to be feared.

12. During the past eight or nine months there has been a marked improvement in the general conduct of the people. There have been less quarrels and a gradual giving up of the drinking habit. I am very pleased to report that about two months ago all the men (with the exception of two), the women, boys and girls signed the total abstinence pledge. They are all very proud of the stand they have taken. We have now formed a Band of Hope and meet every Thursday evening, the natives taking an active part in it, reciting, singing, &c.

13. In conclusion, and on behalf of the natives, I desire to thank the Board for the liberal supply of rations, clothes and other comforts and conveniences necessary for their welfare. All supplies have been of good quality.

I have the honour to be, Sir,

Your obedient Servant,

C. A. ROBARTS.

The Secretary, Board for Protection of Aborigines, Melbourne.

## APPENDIX II.

Mission Station, Lake Condah,  
Milltown, 22nd September, 1910.

SIR,

I have the honour to forward, in accordance with your request, my Annual Report with regard to the management and condition of this station and the aborigines residing thereon. The number of blacks residing during the year ending 30th June, and the average daily attendance on the station for each month during the same period, was as follows:—

Daily Average.		Total.	Daily Average.		Total.		
1. July ...	40	...	43	January ...	46	...	48
August ...	43	...	44	February ...	48	...	48
September ...	42	...	44	March ...	42	...	49
October ...	46	...	50	April ...	46	...	49
November ...	46	...	49	May ...	46	...	49
December ...	48	...	49	June ...	46	...	50

### 2. BIRTHS.

Date.	Sex.	Name.	Parents' Names.	Colour.
10th October, 1909 ...	Female	Edith Olive ...	{ Albert White ... Dianah White ... }	Black

### MARRIAGES.

Nil.

### DEATHS.

Date.	Sex	Name.	Cause of Death.	Colour.	Age.
10th August, 1909...	Female	Ellen McCallum ...	Senile decay ...	H.C.	64 years
29th January, 1910	Male	Walter Tocas Johnson ...	Cirrhosis of liver ...	B.	80 years

19th April, 1910 ...	Female	Edith Olive White ...	Convulsions ...	B.	6 months
21st April, 910 ...	Female	Kitty Wallaby ...	Blood poisoning ...	B.	70 years

3. Full church service was held twice, and Sunday School once, every Sunday. Daily prayers are held as heretofore in the school-house, at which both adults and children receive religious instruction. All the meetings are well attended by old and young.

4. The day school is under the control of the Department of Public Instruction, and the Inspector reports favorably regarding the attainments of the children in secular knowledge. Their writing and drawing are above the average.

5. The total quantity of land belonging to the reserve is 2,050 acres. The whole is securely fenced in with a post and seven-wire fence, and about 500 acres are enclosed by wire netting. The reserve is divided into 10 paddocks, viz: five grass paddocks of various sizes, and five for cultivation.

A large orchard is likewise fenced in, and a vegetable garden. There were 13 acres under crops for hay, but the yield was poor, owing first to too much rain, and then to very dry weather. We put some new ground under cultivation this year, which promises a better return. The hay crop was required for the stock on the station, and the fruit from the orchard, as well as the vegetables, were used by the people residing here. None was sold.

6. The number of cattle, sheep, and horses on hand on 30th June was as follows:—28 cows, 27 calves, 32 heifers, 32 steers, 1 bull, 106 ewes, 57 lambs, 99 wethers, 2 rams, 8 horses.

During the winter months meat had to be bought for the station, as the cattle was too poor to kill, and the sheep pay better when kept till after shearing. No stock was sold or removed, but when the weather gets more settled some store cattle can either be sold or taken to one of the other stations.

7. The number of buildings is 23, inclusive of church, school, mission house, store, &c. The latter are in fairly good condition, but, as most of the cottages inhabited by the natives were put up about 30 years ago, repairs are needed, particularly new floors in their front or sitting rooms. New fences are also badly needed for the front gardens.

8. The health and conduct of the people were fair. The men were employed in clearing ground, gardening, stock riding, wood carting, fencing, bark stripping, and keeping buildings, &c., in repair. The women were employed in looking after their houses and families. The majority keep their houses clean and tidy, and some are particularly tasteful in arranging their rooms nicely; they are, of course, regularly inspected by my wife. The prizes given annually by the Board are also a great incentive to the women.

As regards the children, there are now 5 young girls who, under my wife's training, are taught all kinds of domestic work; while the boys who are too young for doing work which requires strength are employed after school hours in and about the mission premises and garden.

9. The blacks still spend their spare time in hunting and fishing, but as opossums and kangaroos have had to give place to rabbits and foxes, they are particularly keen on hunting both the latter. This enables them to make a few extra shillings from time to time, while at the same time they do good to the country by destroying these pests.

10. We have no cause of complaint as regards the blacks indulging in intoxicating liquor while on the station, but away from home some give way to the temptation, and there are only too many whites ready to offer them drink from a mistaken desire to show them kindness.

11. No half-castes reside here under certificates, and those who left the station have done so many years ago. All work and make an honest livelihood for themselves and families.

12. Supplies of rations and clothes granted by the Board were all of good and suitable quality, and I desire, on behalf of the natives, to express my best thanks to the Board for the Protection of the Aborigines for all that has been done for them.

I have the honour to be, Sir,

Your obedient servant,

J. H. STÄHLE.

The Secretary, Board for Protection of Aborigines, Melbourne.

### APPENDIX III.

Aboriginal Station, Lake Tyers,  
22nd September, 1910.

The Secretary, Board for Protection of Aborigines, Chief Secretary's Office.

SIR,

I have the honour to forward you the Annual Report for the year ending 30th June, 1910.

1. The number of aborigines who attended the station was as follows:—

#### ATTENDANCE.

1909.				1910.			
		Highest.	Lowest.			Highest.	Lowest.
July	...	69	67	January	...	65	64

28th February, 1910 ...	Male ...	Stanley Herbert Foster ...	" ...	Premature Birth ...	8 days
9 h March, 1910 ...	Female ...	Daisy Hood ...	" ...	Diarrhoea ...	3½ years

There have been no Marriages.

3. The usual religious services have been regularly held by the Rev. John Bulmer on week-days and Sundays, and the attendance has been fair. The Sunday School is carried on by Miss Bulmer.

4. The Day School is under the control of the Department of Public Instruction. The Teacher appointed by the Department states that the results are fairly satisfactory.

5. The Reserve consists of 4,000 acres. It is enclosed by a boundary fence, 3 miles and 60 chains in length; about 1,000 acres are subdivided into 7 paddocks, all of which are now ring-barked and improved or grazing; about 14 acres are cultivated, 4 of which are planted with fruit trees; 7 acres are under rape, lucerne, &c., and 3 acres are used for growing potatoes and other vegetables for the station. The whole of the produce grown is consumed on the station.

6. The stock on the station consists of 5 cows, 5 calves, 4 heifers, 46 steers, 1 bull, 41 ewes, 16 lambs, 6 wethers, 2 rams, and 4 horses. Twenty-nine head of cattle and 12 sheep have been slaughtered, and 3 lambs were killed by the blacks' dogs.

7. The number of buildings is 26, inclusive of church, school, mission-house and outbuildings. The cottages are in fairly good condition and most of the women keep their houses clean and tidy. The cottages—with the exception of two—are continually inhabited.

8. The employment of the men has consisted of ringing, suckering, gardening, stock-riding, wood-carting and keeping the fences and various buildings on the station in repair. Some of the women are employed as household servants and all the girls receive instruction in domestic duties—the remainder of the women are engaged in looking after their houses and families. The children who are old enough, and when not in school, receive instruction in household work, gardening and general work.

9. The men rarely now hunt for native game, as they are regularly supplied with beef or mutton—at the rate of 1 lb. per head per day, with half that quantity for children under the age of 10 years.

10. A few of the blacks take intoxicating drink when they can obtain it. Considerable trouble has been caused on the station through some of them obtaining drink from carriers and other white men working about in the bush—although it is known that these men supply the blacks with drink, the police have been unable to procure a conviction, on account of the blacks refusing to give evidence against them.

11. No half-castes reside here, except those who can do so lawfully.

12. The health of the people during the year has been fairly good.

13. The rations and clothing supplied to the people during the year, have been of good quality and have given every satisfaction, and on their behalf I desire to tender my best thanks to the Board.

I have the honor to be, Sir,

Your obedient servant,

R. W. HOWE.

## APPENDIX IV.

Woodford,  
25th September, 1910.

SIR,

In accordance with instructions, I beg to forward the following Report of the state and condition of the blacks at the Framlingham Camp, for year ended 30th June, 1910.

1. The number of blacks attending the station for each month of the past twelve months is as follows:—July, 19; August, 19; September, 17; October, 16; November, 16; December, 19; January, 19; February, 17; March, 18; April, 18; May, 19; June, 19. Total daily average, 18.

2. No births. No deaths. No marriages.
3. Religious instructions are held on the station every Sunday, and are well attended by adults and children. No other religious instructions are given the children during the week.
4. For secular education the children attend the Purnim State school, about 2 miles away.
5. The station reserve contains 500 acres, fenced and watered by the River Hopkins, divided into paddocks, and occupied as follows :—

	Acres
General reserve ... ..	212
Mrs. Lancaster ... ..	80
William Good ... ..	84
John Wyselaskie ... ..	84
Frank Clarke ... ..	40
Total ... ..	500

The persons named above occasionally take in cattle to graze at various fees from the public, and also milk a few cows for themselves. They sell the milk to the local butter factory. The general reserve is used by the blacks of the station for grazing their horses thereon, and occasionally by the public, the fees being collected by me, as local agent, and forwarded to the office in the usual way. None of this land is cultivated by the blacks.

6. There are now one cow and one heifer milking on the station; one calf, and one young bull, the property of the Board. These cows are used by the blacks to supply them with milk.

7. There are (7) cottages on the station, all in use and in a fair state of preservation. The cottages are kept clean by the occupiers. No stock or produce was sold during the year.

8. Some of the blacks and their children engage in hop-picking at Timboon in the season, and a few of the men find work on the different stations during the shearing. The balance of their time is spent trapping rabbits, basket making, and idling about. The children follow the same line of life as their parents.

9. The adults and some of the children receive an allowance of meat weekly, which they supplement with rabbit flesh. The blacks on the station are now living soberly, with the exception of three of the half-castes, viz., James Arden, Chris. Austin, and Henry Rose. These men usually get drunk whenever the opportunity offers, particularly at races and sports meetings. However, they promised me recently that they would not again offend in this direction, and they are since then leading a sober life.

10. All the half-castes coming under the operation of the law are still on the station under the usual certificates. None of them are apprenticed as servants.

11. The rations and clothing supplied during the year have been of good quality, and have given every satisfaction to the people.

12. The health of the people during the past year has been fairly good.

13. Two of the half-castes, viz., Chris. Austin and James Arden have been convicted and imprisoned since my last report, the first named to six months for larceny, and the last named to one month for being a suspected person frequenting a public place. All the others have conducted themselves well.

M. J. GLEESON,  
Local Guardian

Wm. J. Ditchburn, Esq., Secretary, Aborigines Board, Melbourne.
